NOTES FROM LA GRANDE

The La Grande National Bank May 9 recently commenced business will a its new brick within the next two or three months. La Grande is certainly an exceptionally fine own considering that it has had five disastrous fires within the past five years. One swept away the entire business portion of which and made it for half a dozen houses a truly prohibition one for not less than seven was left standing. Almost all the buildings destroyed have been replaced by better ones. Three fine bricks have been erected, and foundations laid for two more.

La Grande is the end of a division and it is now confidently expected that [illegible] Union Pacific [illegible] great things for it. The machine shops [illegible] houses etc are already situated here and with the fine country lying around [illegible] trade into this town. [illegible] in the next two or three months. [illegible] is grand and the climate delightful. [illegible] that backward [illegible] is backward but the spring [illegible] Just now the temperature [illegible] people of La Grande are happier perhaps than those of any other place in Oregon. THE TIDE

It is high noon upon the burning sands
I stand day dreaming gazing at the sea
That fond yet fickle stretches out her hands
To clasp once more the beach which wearily
Hath so long waited through the heat alone
Until what time from minding of the moon
The truant tide shall turn to claim its own
And lap it deep in self forgotten swoon.
So my loved one, to fantasies a prey
Strange moon-begotten fancies of her brain,
Doth give them chase and haste from me away,
Till of her heart bethinking turns again
And wraps me close shuts out all else beside
The strand I seem to be—and she the tide

Catarrhal Dangers.

To be freed from the dangers of suffocation while lying down to breathe freely, sleep soundly and undisturbed to rise refreshed, head clear, brain active and free from pain or ache to know that no poisonous putrid matter defiles the breath and rots away the delicate machinery of smell, taste and hearing, to feel that the system does not through its veins and arteries suck up the poison that is sure to undermine and destroy, is indeed a blessing beyond all other human enjoyments. To purchase immunity from such a fate should be the object of all afflicted. But those who have tried many remedies and physicians despair of relief or cure.

SANFORD'S RADICAL CURE meets every phase of Catarrh from a simple head cold to the most loathsome and destructive stages. It is local and constitutional. Instant in relieving, permanent in curing, safe, economical and never failing.

SANFORD'S RADICAL CURE consists of one bottle of the RADICAL CURE, one box of CATARRHAL SOLVENT, and one IMPROVED INHALER, all wrapped in one package, with treatise and directions, and sold by all druggists for $1 00.

STANFORD UNIVERSITY.

Exercises Connected with the Laying of the Corner Stone.

SAN FRANCISCO May 15.—The laying of the corner stone of the Stanford University yesterday at Palo Alto in Santa Clara county, is considered here as a monumental milestone not only of California but also of the Pacific coast. The endowment for this grand undertaking embraced the gift to the state of Palo Alto ranch valued at [illegible] the Gridley ranch $1,100,000 and the Vina ranch $1,000,000 a total of $[illegible] in land and a balance of $[illegible] in money—making up a total donation of $[illegible]

The whole of to-day's ceremonies were conducted in a simple and most unostentatious fashion. A special car was attached to the morning regular south bound train and in it were seated fifteen out of twenty three trustees and about [illegible] gentlemen whose interest in the ceremonial had led them to attend. It was hoped that Judge Deady one of the trustees would be able to attend but he was obliged to send a letter of regret

ON THE GROUNDS

Arriving at Menlo Park station several hours' ride Senator Stanford was found on the platform waiting his guests and having seen them comfortably stowed away in half a dozen carriages started them for his residence. There a short halt was made and once more the procession started for another drive of about a mile and a half to the site. A roughly constructed shed with a flapping canvas roof had been put together for the shelter of those attending it. By the accession of [illegible] a band of school children and a few of the farmers of the neighborhood had risen in number to about [illegible] 60

A few chairs had been provided for Senator and Mrs Stanford and their immediate friends and no other was there seated than the Senator announced that the proceedings would be opened by prayer from Dr Stebbins. The prayer was what might be called an eloquent effort. It was addressed to the God of nature and embraced many appropriate figures of speech and well rounded periods

Dr Stebbins was followed by Judge Sawyer who as president of the board of trustees delivered the address of the day. The judge's speech reviewed the circumstances leading up to the event of the day described the nature objects and foundation included an apostrophe of much feeling to the donor, and wound up with words of advice and encouragement to his fellow trustees

THE STONE LAID

At the conclusion of Judge Sawyer's address Senator Stanford took up a sealed copper box which had been standing near him and placed it in a hollow made in the nether stone of the foundation corner. In the box were the following: Photographs of Leland Stanford, Jr. a publication containing a history of the endowment gift and a sketch and photograph of each of the trustees a pamphlet concerning the Leland Stanford Jr museum giving an account of its origin and describing its contents a book in memoriam of Leland Stanford Jr one of each description of coins of the United States date of 188[illegible] the newspapers of Friday, May 13 188[illegible] keepsakes placed in the box by Mrs Stanford a history of all the proceedings connected with the university preceding the laying of the corner stone including an account of the first inception of the work, this history being on parchment and being signed by Senator and Mrs Stanford a written programme of the proceedings connected with the corner stone laying including the names of the trustees the architects and the Messrs Olmstead and a copy of the address delivered by Judge Sawyer

All being then ready mortar was laid on this nether stone the senator smoothing it with an ordinary working mason's trowel. A block of sandstone suitably inscribed was then lowered in place over this, tapped thrice by the senator and declared to be well and truly laid

A psalm was read a hymn was sung by the choir of the village church the benediction bestowed and the services were over

The rest of the afternoon was passed in driving in the neighborhood the party returning to town by the early evening train

The newspapers here to-day give much space to the laying of this corner stone and taking this as a text comment on its probable effect on future educational interests on the coast and nation at large

SCHOOL BOOKS.

Disorderly Scene at a Meeting of Federated Trades

SAN FRANCISCO May 15.—The question of text books for public schools still continues to be much discussed here. A mass meeting of federated trades was held last evening the object being to consider and ask why the law providing for the publication of school books by the state is being made inoperative. One of the speakers was State Senator Clunie who said Although there would have been many orders last year for the printing of school books yet the plant for that purpose remained idle. The Knights of Labor investigated the question and found that there was a screw loose somewhere. It is the state superintendent of public instruction. You, the people elected a wrong man to that office. Do you not know that Mr Hoitt was employed by Bancroft & Co for years? He wants the publication of books by the state to be made odious

On the conclusion of his remarks somebody in the audience called out Sit down. Gen Clunie in a voice of anger replied If the man who said that will come on this platform I will either set him down or he will set me down

Gen Clunie then said I see the man he is the representative of the Nevada bank. He is a dirty whelp and a contemptible puppy. Turn him out!

A number of the audience sprang toward the party indicated and several taking him by the shoulders pushed him up the main aisle. He was followed by a crowd who kicked at him and struck him and after hustling him out of the door threw him down stairs. Excitement ran high for a time. The man so treated was J S Angus secretary of the Anglo Nevada Assurance Company. The meeting adjourned without effecting any decided results

RAILROAD MATTERS

The Canadian Pacific's Fight—Excursions to the East

SAN FRANCISCO May 15.—General Traffic Manager Olds of the Canadian Pacific telegraphed to this city yesterday that a large shipment of wool which left this city on April [illegible] for Boston over the Canadian Pacific, arrived in the latter place on May 13. A sugar shipment that was sent at the same time arrived in St Paul on May 7. This makes the time twenty two days between San Francisco and Boston and fifteen days between this city and St Paul. This is regarded here as a significant piece of news from the fact that it has long been generally presumed that the freight route via the Canadian Pacific would be from seven to ten days longer than on transcontinental routes running by way of Chicago and St Louis

Local agents of various roads between here and Chicago are each making arrangements to send excursions east this summer. The fare will be for third class $35 to Kansas City and $47 50 to Chicago. Emigrant cars will be fitted up with more than usual accommodations. A number of agents are undertaking them not as a matter of choice but as a means of protection against some of the more enterprising roads. They claim that excursions are wrong because many go that way who would otherwise buy first class tickets

A NASHVILLE SENSATION

A Society Young Man Shot While Drawing Water for His Mistress.

NASHVILLE Tenn May 15.—J B Hotchkiss a young man about 30 years of age and head of a wholesale hardware firm was badly wounded last night in a difficulty next door to the home of his mistress. He and the owner of the premises upon which he had entered to get a bucket of water had warm words which resulted in a resort to pistols. Five shots were exchanged at short range. Hotchkiss was shot in the side and the bullet grazed his heart. The other man Wilhelm, was not struck. The wounded man was led to the room of his mistress who lives in a suburb of the city. District [illegible] treatment and two physicians were summoned. Every effort was made to cover his identity [illegible] even going so far as to [illegible] be moved out of the city in his precarious condition. The news created considerable excitement. Hotchkiss is a handsome wealthy and popular man and strong in financial circles as well as [illegible] He is a leader in fashionable circles. He was engaged to a beautiful young lady member of one of the proudest families in the state. His condition is such that he cannot be removed to his residence and he now lies at the home of his mistress

CALIFORNIA

LAST DAY OF THE Y. M. C. A. CONVENTION

SAN FRANCISCO May 15.—The attendance at the closing sessions of the Y. M. C. A. International convention yesterday was large. William W Banks of Portland delivered an interesting account of the association's work among the Indians of Alaska. After other proceedings, business matters were taken up. The question of funds for carrying on the association work for the next two years was brought up and in a short time $[illegible] was subscribed

In the afternoon the session was largely devoted [illegible]

At evening the session was largely given up to an exhibition of stereopticon views of prominent association buildings throughout the United States and abroad. The Congregational church was crowded and the vociferous applause showed how thoroughly the views were appreciated. Gen Howard next made a farewell address to the convention and bid the delegates God speed through life and success in the glorious work in which they are engaged. I. D. Wishard favored the company with a beautiful solo and D A Sinclair pronounced a prayer which closed the most successful convention held in this city. Delegates from Oregon and Washington territory have taken an active part in the proceedings of the convention during the week especially has secretary Trost of Portland been active

Y. M. C. A. SUBSCRIPTIONS

SAN FRANCISCO May 15.—At the session of the Y M C A international convention yesterday the roll was ordered called for subscriptions. The amounts subscribed by the associations at the various localities named to be paid annually during the two years to intervene before the next international convention. Following are subscriptions by associations for the Northwest: Victoria $10, New Westminster B C $10, Astoria $[illegible], Portland $[illegible], East Portland $10, Seattle [illegible], Spokane Falls [illegible]. The associations in New York city pledged $1,000, Chicago and Pittsburgh $[illegible] each [illegible] San Francisco $[illegible] previously subscribed. During this week until the time of their departure most of the delegates will busy themselves in making excursions to [illegible] outside of the city special rates having been secured on steamers and railroads

THE EASTERN OREGON DELAYED

SAN FRANCISCO May 15.—The Oregon's steamer Eastern Oregon formerly City of Eureka which the Oregon Development Company purchased in the East some time ago to place in the Yaquina City trade put into Santa Barbara yesterday short of coal. A few days ago the Eastern Oregon put into Valparaiso for a supply of coal to take her to this city but the captain either made a miscalculation or else the vessel encountered head winds and used more coal than was expected. There is no coal to be had at Santa Barbara a fact of which the captain was unaware. If the steamer has not sufficient coal to take her down to San Pedro where she can obtain a supply sufficient to bring her to this port a supply will be sent down to her on the steamer Eureka. Agent Tobey feels rather annoyed that the steamer should be delayed but she will sail on schedule time May 21 for Yaquina City in place of the steamer Yaquina City which is receiving new boilers. The Eastern Oregon having touched at Valparaiso an infected port she will be placed in quarantine on her arrival till officials are satisfied there is no infectious disease on board

WILL BUILD AN ENORMOUS DAM

SAN FRANCISCO May 15.—Plans for a prodigious dam to be built by the Spring Valley Water Company for the purpose of forming a new reservoir are nearing completion. The dam will be built at the upper end of San Mateo canyon where it joins Crystal Springs valley some four miles from San Mateo. The foundation of the dam will rest upon solid bed rock and the whole structure will have a vertical hight of 1[illegible]0 feet. The dam will stretch across the canyon from hillside to hillside and at the top be [illegible]00 feet across. It will be the largest stone dam ever known to have been built. The reservoir that will be formed by the erection of the dam and by the walls of the surrounding hills will be about eight miles in length and at its deepest point will be 160 feet in depth. Its capacity will be 32,000,000,000 gallons of water. The supply of water will be derived from surrounding mountains. It is estimated that a million and a half dollars will be expended in the construction of the reservoir

THE LICK STATUARY FUND

The Lick trustees have advertised for designs on paper for the construction of groups of historical statues in accordance with the thirteenth clause in James Lick's deed of trust which directs that the sum of $100,000 shall be used for the erection of a group of bronze statuary in front of City hall which shall represent the history of California. There are to be three groups, the first representing the state from the time of the early missions to the acquisition of the country by the United States the second will represent the state from that to the time when agriculture became the leading industry and the third down to the year 18[illegible]. The city hall commissioners have already allotted ground in the city hall yard necessary for the groups

NEWS FROM HONOLULU.

SAN FRANCISCO May 15.—Private advices received to-day by the steamer Zealandia from Honolulu report that the Hawaiian warship Kaimiloa will proceed shortly to Samoa and thence to Tonga with the intention it is said of annexing the latter and negotiating a treaty of federation similar to that recently effected with Samoa

Good rains have fallen on Oahu Island materially benefiting all the crops

Hawaiian government expenses it is stated have been almost doubled this year and there is no money in the treasury for current expenses as the loan fund is not available for such purposes

COMPLAINT DISMISSED

The complaint accusing James L[illegible] of embezzling $[illegible] from the Western Union Telegraph Company in his capacity as a receiver, was dismissed yesterday by Judge Hornblower after an examination. The complaint charged the alleged misappropriation of a lump sum of shortages covering a period of more than three years. It was shown that the deficit arose from errors in counting the number of words in messages. The company held him to account for the exact number. [illegible] was warmly congratulated by friends after the dismissal of the case

THE BERNHARDT SEASON

The Bernhardt sale of seats commenced with the season sale on Monday last. $[illegible] was realized on this sale. On Thursday the single seat sale commenced with a great rush. The process of finding out anything from Mr Gould is looked upon as from his absent minded Mr Sage. The last vestige of Mr Sage's memory fled when he was asked about the consolidation deal and Gould's resignation and re-election to the directorship on the same day. The books showed however that the man with no memory had presented Gould's resignation moved its acceptance and [illegible] reinstatement

Singular to say there is very little public solicitude about Mr Sage's deplorable mental condition manifested. It is the general belief that his memory about the price of puts and calls has not been seriously impaired

Yesterday the Pacific commission got some information for the first time. Broker Hassler and Henry Villard gave it. Hassler was the best witness the commission had. Judge Dillon wanted to know if the harmonious relations resulting from the consolidation would not account for the increased value after Gould took them. Mr Hassler believed that Wall street reports true or false had more to do with advancing them than anything else. Mr Hassler didn't relish the manner in which Mr Gould made a fortune out of the bonds. Mr Villard understood that the consolidation would reduce the number of securities but the result was quite the contrary. Mr Gould purchased bonds of the St Louis pool at 1½ cents and they were mightily indignant when directly after giving up the property, they saw it increase in price. All the Kansas Pacific stock 200,000 shares was delivered to Gould Ames and Sidney Dillon. This evidence pleased the commission so well that they smiled

WEATHER CROP BULLETIN

Chief Signal Officer Greeley's Review for the Past Week

WASHINGTON May 15.—The signal office has issued the following weather crop bulletin for the week ending May 14 188[illegible]

Temperature—During the current week the weather has been warmer than usual in all agricultural districts east of the Rocky mountains and the southern half and the extreme northern portions of California, the only sections reporting cooler weather than the average for the week being lower Rio Grande valley, Oregon, Washington territory and Central California. The excess of temperature over the normal for the week in the wheat and corn regions of the upper Mississippi and lower Missouri valleys ranged from 60 degrees to [illegible] degrees—a daily average of from about 6 degrees to 11 degrees above the normal. This excess of temperature has served to advance the season over the regions where the total deficiency in temperature since January 1 ranges from 100 degrees to 200 degrees. In the gulf states, Tennessee, New Jersey, Pennsylvania, Maryland and Delaware the week was about [illegible] degrees warmer thus increasing the excess of temperature previously reported in these sections. In the cotton region the excess of temperature for the season now ranges from [illegible]0 to [illegible]0 degrees. In the south Atlantic coast the average temperature for the week was about normal thereby changing but slightly the total deficiency of from 100 degrees to 200 degrees as noted in the bulletin for the previous week

Rainfall—During the past week there has been a deficiency of rainfall in all sections except in the lower Rio Grande valley, Delaware, Maryland and sections in Oregon and Washington territory, where slight excesses are reported. The slight rainfall during the week helped to increase the deficiency already existing in the Southern states where the rainfall since January 1 has been from six to ten inches less than the average for this season. The rainfall for the season is slightly in excess, from Northern Wisconsin westward to Northern Dakota in the upper Ohio valley and the Western parts of New York and Pennsylvania, and in Southern Michigan

Generally in the wheat and corn regions of the North the week has been exceptionally favorable for agricultural pursuits. The dry warm weather continues in the cotton regions east of the Mississippi while the conditions west of the Mississippi have been favorable to the cotton crop. Although there is a large deficiency in all the cotton regions recent showers have improved the condition of the crop in the lower Mississippi valley while the weather in Northern and Southern Carolina and Southern Virginia is reported as favorable for the growth of the plant

A TALK WITH MORRISON

CHICAGO May 15.—Col Morrison, of the interstate commission, was in the city yesterday. Speaking of information derived from his trip through the South Morrison said that the preponderance of the testimony taken was largely in favor of permanent suspension of the long and short haul clause of the bill. He would not however intimate in any way what the decision of the commission would be merely remarking that the board would assemble in Washington next week and there formulate its views on the subject. He did not think that there is a growing hostility to the act or that a sentiment will crystalize which will demand the repeal of the law although congress may be called upon to modify it in some particulars

A PROTEST AGAINST COERCION

DENVER May 15.—Over three thousand citizens attended a public meeting in Music hall to-night to protest against the passage of the coercion bill now before the British parliament. The meeting was presided over by Gov. Adams who delivered the opening address. He was followed by Senator Teller, ex-Congressman Belford, Rev. Myron Reed, Hon T. M Patterson and others. At the conclusion resolutions were adopted severely denouncing the actions of parliament toward the Irish people as well as their attempts to make the coercion bill a law. A resolution was also adopted extending heartfelt thanks to Hon Wm E Gladstone and Hon Charles Stewart Parnell for their great efforts in behalf of the Irish people

WILLIE SPRAGUE WANTS A DIVORCE

NEW YORK May 15.—A *Times* Newport special says It is stated upon excellent authority that Willie Sprague son of ex Gov William Sprague and grandson of the late Chief Justice Chase is to sue for a divorce. It will be remembered that he married his stepmother's sister. The ground upon which the petition will be based is that Willie who was a mere boy at the time of the marriage was not a free agent. Papers will be filed at next term of the supreme court. Willie remained with his father when Mrs Kate Chase Sprague left Canonchet and since his mother's divorce he has invariably taken sides with his father. He led the van in the great battle at Canonchet in the days of the Chafee Sprague war

PATTI SAILS FOR EUROPE

NEW YORK, May 15.—The deck of the Cunard steamship Umbria was crowded at 10 30 o'clock yesterday when Mme Patti accompanied by her niece and Signor Nicolini walked on board. She was also attended by several friends, who had come down to say Good bye to her. She looked as radiant as she usually does on such occasions and no trace of the indisposition that prevented her singing on Wednesday night was visible. But I really was quite ill she said to a friend who made some laughing suggestions to this effect. I have never been in the habit of disappointing the public and I don't mean to begin at this late day. However it is no use recurring to that topic

ANOTHER DRY SUNDAY IN NEW YORK

NEW YORK May 15.—The excise laws were even more rigidly enforced to-day in this city than last Sunday. In consequence saloon keepers on the New Jersey side did a rushing business. Thousands of people, Germans especially crowded the ferry boats on their way to enjoy music and beer. In the hotels the enforcement of the law evoked much indignant comment. In many cases guests had purchased bottles of wine on Saturday and to-day brought them from their rooms to drink at their meals. At the Brunswick Delmonico's and other up town hostelries the usual stillness reigned in the barrooms. At the Hoffman house the bar was draped in black

WANT THEIR PAY ON SATURDAY

ST LOUIS May 15.—Agitation against the Monday pay day proposed by employers of labor in the East has reached this city and the power of employers to make a change will be tested here first by workmen of N. K. Fairbanks & Co who have 60 workmen on their pay roll. The men heard on Friday that the firm would withhold their wages yesterday and pay them Monday. They immediately got up a petition against the change, and all signed it. The firm declined to grant the petition and the men went home last night without their money. They are talking strongly of striking, and assert that if the firm persist in their course they will at once make the matter an assembly question.

RAIN IS NEEDED

CHICAGO May 15.—Following is the weekly report of crops printed by the *Farmers' Review*

Our reports for the last week show that while some localities were favored with rains others and the greater number are needing seasonable rain and that in its continued absence crops will suffer seriously. Reports on the condition of winter wheat continue fairly favorable. While the showing on wheat is fairly good for the time these reports were forwarded it remains a fact that continued dry weather will materially reduce these percentages of condition. Throughout almost the entire territory covered by our reports meadows and pastures are reported as needing rains

GOV LEE WRITES TO BADEAU

RICHMOND Va May 15.—Gov Lee has mailed a letter to Gen Adam Badeau in response to one in reference to Gen R. E. Lee having drawn rations from the Union forces after his return to Richmond from Appomattox in 1865. Gov Lee shows that Gen Lee did not draw or apply for rations and concludes. His colored dining room servant Sam living here says he did his marketing every morning and at no time was there any scarcity of supplies. I think it is likely that some persons drew supplies in Gen Lee's name of which he knew nothing

THE FATHER OF CHEAP POSTAGE.

SHOT BY A NEGRO

GALVESTON May 15.—A special to the *News* from Willis Texas says As young Granville Powell was assisting some ladies on a passenger train this evening he requested a negro who was obstructing the passageway to move aside so as to allow the ladies to pass. The negro instead of complying commenced cursing Powell who then attempted to force the negro out of the way. The latter thereupon drew a revolver and fired at Powell fatally wounding him. The negro with another negro and woman charged with being accessories was arrested. The affair has created intense excitement and lynching is freely talked. At a late hour Powell was bleeding to death

SHOT TO DEATH BY A MOB

WILLIS Tex., May 15.—About 3 o'clock this morning a body of armed men surrounded the calaboose where two colored men Andrew McGeehe and J. B. Walker were confined charged with shooting young Granville Powell while he was assisting some ladies on a passenger train Saturday evening. The mob overpowered the guards, broke down the door and told Walker's wife who was present to get out. Then they opened fire on McGeehe and Walker who were chained together. Five minutes later the mob disappeared. At daylight McGeehe was found dead in his cell with eight bullet holes in his body. Walker was seriously wounded in three places but may recover. He and his wife were taken in charge by Deputy Sheriff Glace who took them to Houston to-day for safe keeping

WILD ACT OF A CRAZY GIRL.

ALBANY N. Y. May 15.—While Father Looney was hearing confessions in the cathedral last evening, Alice Craig entered the office and approaching to within about six feet of the confessional box drew a revolver and fired three shots at him. One of them pierced the reverend gentleman's coat sleeve and the others sped harmlessly behind him and lodged in the wall at his back. The would be murderess was arrested. She is undoubtedly insane. She labors under the delusion that she was robbed several years ago by a priest in Ireland and also that a wealthy English gentleman has defrauded her out of a large amount of money. Miss Craig is well known to officials of the police court and of late has caused much annoyance to the magistrates

PORTLAND, MONDAY, MAY 16, 1887.

SHERMAN ON SILVER.

Senator Sherman has made a new statement of his views on the silver question, putting into more condensed form the ideas he has heretofore expessed. It is his belief that the interests of the silver producers as well as the people of the whole country would be greatly benefited through stoppage of the coinage of the standard silver dollar, since the vast volume of these coins in the treasury and the possibility of their being at any time thrown upon the market has a disturbing influence on the commercial value of silver. This probably is a correct judgment, as far as it goes, and yet the main cause of the depression of silver, and therefore the remedy, are beyond the reach of the United States. It is a world-wide problem, and so long as the other great commercial nations continue to discredit silver, the United States can not restore its value. By coining silver and storing it away as we do, we make a market for the metal and do something towards holding up its value, whereas the true policy for us is to let the market collapse, as a preliminary condition to an international agreement for restoration of silver to its place as an indispensable money metal.

Senator Sherman's further plan was this. "He believed it would be much wiser to place in the treasury the silver bullion purchased in open market, and issue coin certificates based upon the market value and no more. This would relieve bankers and others from the fear of the single silver standard, and would abolish the absurdity of the government buying at one rate of the miner and coining and issuing at a greatly inferior rate. Both silver and gold are indispensably necessary as standards of money, but their market value must be adjusted as near as may be from time to time, and whenever a substantial divergence of their relative value continues for a considerable time a change in ratio should be made by the concurrence of commercial nations. In the United States no large amount of silver and gold will ever be in active circulation, and the best representatives for these metals are coin certificates based upon the relative value of the two metals. Such an adjustment could be accomplished by a simple act of congress suspending the coinage of the standard dollar and providing as now for the purchase of silver bullion and the issue of certain certificates for its cost. Mr. Sherman said he would stake his reputation upon the sure and steady advance in price of silver bullion that would be caused by such a policy. Experience now for nine years has shown that the tendency of the present system of coining the standard dollar is to depreciate and reduce the value of silver bullion. Experience is worth more than theory, however plausible."

RAILROAD POLICY.

An Omaha paper reports Manager Potter as saying in reply to the question what steps would be taken by the transcontinental lines if suspension of the long and short haul clause is not made permanent

None at all. The importance of that traffic to the roads has been greatly exaggerated, and if it should all be lost to us we would not suffer greatly. The transcontinental lines depend for the most part on their local business and the tonnage of through freight is not only small but the revenue therefrom is of no great importance

It is evident that it was on this principle that the roads, when the interstate law went into effect, did not reduce rates to intermediate points, but simply advanced their through rates. This was the way to secure the largest amount of earnings and if suspension of the long and short haul clause is not made permanent, it will be resumed. The through business will be allowed to go to the ocean, to the Canadian Pacific or Pacific Mail, because the roads will lose less money by this course than by reducing the charges to points within their termini.

And yet the question awaits solution whether the transcontinental roads could not lawfully make lower rates to terminal points on the western seaboard, on the ground that the circumstances and conditions are not similar, than to points within shorter distances. But they do not seem inclined to press or test this question. The reason may shrewdly be suspected to be that they feel satisfied of being able to get at least as much money out of the business by this close interpretation or construction of the law as by insisting on the more liberal construction. The whole power to make rates rests in their hands, subject only to the limitation that no charge shall be greater for a longer than for a shorter distance in the same direction, and what may be lost on through business, therefore, may be made up on local or intermediate business, and the loss of through business, moreover, will supply them with an argument in support of the claim that the local rates, though high, are necessarily so, and therefore not unreasonable.

PORTLAND AND THE COUNTRY.

The Ashland *Tidings* in its issue of last Friday has the following article upon "Oregon's Metropolis." With a good deal that is mistaken it contains much that is true and both for its truths and its false assumptions it is worth attention

THE OREGONIAN is endeavoring to awaken a spirit of enterprise among the [illegible] per cent capitalists of Portland, but it has a forbidding task before it. Even a feeble emulation of the enterprise of San Francisco, Los Angeles, St Paul, Minneapolis and other notable examples of urban progress in the land would result in immense advantage, immediate and permanent, to Portland. A few progressive spirits from elsewhere may come to Portland and eventually leaven the great lump of inertness, but golden opportunities are daily slipping by and [illegible] into more appreciative hands. [illegible] is reaching out into the commercial fields which Portland has thought would ever be her [illegible] to tax and tithe and then contemn at her own swinish will. And Portland is now rubbing her heavy eyelids to see California [illegible] possession of the commercial [illegible] of her own Willamette valley. Rogue River valley, the Klamath basin and all of Southeastern Oregon have been allowed for years to consider themselves as destined for commercial union with the California center of trade as soon as the coast railway line shall have been completed. A large share of the trade of the Columbia basin will soon be diverted to the sound by the Cascade branch of the Northern Pacific railroad. The contemplated branch railroad from the California & Oregon through the eastern tier of counties will cut off about all the revenue Portland derives from the rapidly developing region east of the Cascades and south of the Columbia. The changes occurring in the extent and control of the transportation lines of the Northwest might not seriously injure the business or prospects of a city of genuine enterprise situated as Portland is and possessing as Portland does abundance of capital, but it will cripple Portland and should do so because Portland, as a city, bears the same relation to the other trade centers with which she will be thrown in competition that a pawn broker does to a broad gauge leader in the world of manufacture or commerce. If Portland were Minneapolis or Los Angeles or San Jose her commercial links with the territory within the boundaries of her own state would be now so firmly welded that there would be little fear of their giving way before the advances of rival interests, but the course pursued in the past and still pursued has broken every tie that bound the remoter portions of the state to the metropolis with the feelings of mutual interest and pride in the commonwealth which could and should have been maintained. In Southern and Eastern Oregon, at least, the people have worn their heavy chains of commercial oppression with much fretting and chafing and hail as a welcome deliverance the opening of an avenue to a more inviting center of trade. This same spirit seems to be prevalent throughout the state as far as can be determined by the tenor of the local press, and it is this feeling—an immaterial but very potential creation of Portland herself—that is to be dreaded by her. Her own dullness and cupidity and the resentful feeling they have aroused throughout Oregon are the heaviest weights in the handicap race in which she is to enter with her southern competitor for the trade of her own state. Until she can rid herself of these shackles she need ask no sympathy from her own misused people of Oregon.

It is true unquestionably that the capitalists of Portland are slow to move in enterprises looking to the development of the city and state, and that they are permitting outsiders to enter Portland's natural business field; but it will hardly do for the country to assume that it has the spirit which is lacking here. Open to criticism as business methods here may be, those of the country are not better. One is the complement of the other. We venture to say that in the whole United States there is no jobbing centre as indulgent to its creditors as Portland is, or which is so slow to "punish" those who forget business obligations. In Eastern and Southern Oregon millions of dollars are due to business houses in Portland, much of it upon accounts which have not been settled for years, and yet our business community waits with rare patience, oftentimes too long for its own good. It is not an uncommon thing for a country merchant to use the money which of right belongs to his Portland creditor to buy goods in other markets, and the instances are few where such cases have been dealt with according to the hard rule of business elsewhere. Portland has been always a liberal and indulgent creditor.

If Portland is slow and conservative, so is the country slow and conservative. It is a case where the pot cannot call the kettle black. Go, for example, through the older towns of the Willamette valley, and it will be found oftener than otherwise that the improvements of the last fifteen years have little more than compensated the effects of decay. Examine their small industries, and in four cases out of six you will find their financial resources in Portland capital.

Portland money grinds wheat into flour at Salem, Silverton, Dayton, W. T., and a dozen other places; makes paper at La Camas, W. T., and at Clackamas, Oregon, extracts lime from the quarries of Josephine county, makes lumber at Grant's Pass and the on Lower Columbia, and makes cloth at Oregon City and Brownsville. It digs in the mines of Eastern Oregon and Idaho and Southern Oregon. It saves the merchant, the farmer and the miner from the bankrupt court in bad years. Portland has not reached out as she might have done. She could and should have ten factories and mills where she has one, but she has been quite as active as the country has been, and has in fact done more for the country than the country has done for itself.

It is not becoming in the Ashland paper to talk about "chains of commercial oppression" and to assert that Portland has "misused the people of Oregon," for this talk does not stand for the truth. Portland has neglected her own opportunities, but she has done no wrong to the country unless, indeed, it may be charged that she has been too indulgent in the matter of credit.

THE U. S. SUPREME COURT.

The death of Justice Wm B Woods marks an important period in the history of the U S. supreme court. President Cleveland has the honor, if it be an honor, to appoint a democrat to the U S. supreme court for the first time since 1858, when President Buchanan appointed Nathan Clifford of Maine to succeed Benj. R. Curtis, resigned. The U. S. supreme court, when in 1857 it pronounced the celebrated Dred Scott decision, was composed of Chief Justice Taney of Maryland and Justices McLean of Ohio, Wayne of Georgia, Catron of Tennessee, Daniel of Virginia, Nelson of New York, Grier of Pennsylvania, Curtis of Massachusetts, and Campbell of Alabama. Judge Taney in this decision ruled that a negro, whether a slave or a descendant of a slave, was regarded as having no rights which a white man was bound to respect, and that the negro might justly and lawfully be reduced to slavery for his own benefit. Judge Daniel of Virginia agreed with Taney, both judges denied the constitutionality of the Missouri compromise act of 1820, and all but two of the judges, viz Curtis and McLean, agreed with Taney that a negro had no rights under law no rights that a white man was bound to respect, that he was not a citizen and could not become a citizen if he was descended from a slave and this was the composition of the court March 4, 1861, when Lincoln was inaugurated, save that two vacancies existed, viz McLean had resigned and Daniel of Virginia, appointed in 1842, had gone over to secession. Curtis, the brains of the opposition to the Dred Scott decision, had resigned in disgust and had been replaced by a bitter, pugnacious old Northern doughface, Clifford of Maine. So Lincoln had for a supreme court a body of men every man of whom had said "Yes" when Taney declared a negro had no rights in the past, no rights in the present, no rights in the future, if he was even a remote descendant of a slave.

Taney had been appointed by Jackson as reward for political partisanship in the matter of the United States Bank in 1836. Wayne, of Georgia, was appointed in 1835; Catron, of Tennessee, in 1837, Daniel, of Virginia, in 1842, Nelson in 1844. That was the United States supreme court in 1861. By 1862 Justice Campbell, of Alabama, had got out of the court to join the rebellion, and Swayne, of Ohio, had been appointed to take the vacancy of McLean. Swayne was a republican. His son, Wager Swayne, went into the army, rose to be a major-general, and came out of the war with the loss of a leg. He is now one of the first lawyers of the country. Saving Swayne the court was still all democrats of the Taney type. In 1862 the court was enlarged by the appointment of David Davis, of Illinois, and Samuel F. Miller, of Iowa, to existing vacancies, and in 1863 Lincoln appointed Stephen J. Field, of California, then a republican, so that on January 1, 1864, the supreme court had a doughface chief justice, Taney, five dough-face Dred Scott associates, and four republicans. Taney died in 1864, and Salmon P. Chase was made chief justice. Catron passed out in 1865, and in 1868 the court had, including Chief Justice Chase, a majority of republicans. Grier resigned in 1869, Wayne, of Georgia, passed out in 1870, and these two old Bourbons were succeeded by Strong of Pennsylvania, and Bradley of New Jersey. Chief Justice Chase died in 1874, and was succeeded by Morrison R. Waite of Ohio, and Judge Nelson was succeeded in 1872 by Ward Hunt, of New York. David Davis resigned in 1877 and was succeeded by John M. Harlan of Kentucky, and Judge Strong (resigned) was succeeded in 1880 by Wm B. Woods, just deceased. Garfield appointed Stanley Matthews of Ohio to succeed Swayne, retired, in May, 1881. Judge Clifford, the last of Buchanan's Bourbons, retired in 1881, and was succeeded by Horace Gray of Massachusetts and Ward Hunt, resigned, was succeeded by Blatchford, March 27, 1882, so that at the beginning of Cleveland's administration the supreme court was [illegible] republican, save Justice Field, who had become a democrat. And now the death of Justice Woods gives the president a chance to appoint the first democrat to the supreme bench since 1858.

When the republicans came into power in 1861 the bench was a solid pro-slavery tribunal, the mere tail of Taney's robe defiled with Southern dirt. It was three years after the war before the court became republican by one majority, and it was twenty years after Sumter before the court was entirely clear of the pro-slavery judiciary appointments of Buchanan. If it takes the democracy as long to clear the bench of republicans as it did the republicans to wipe the national ermine clean of democratic dribble, it will be a long time before the legal acumen that pointed the logic of the Confederates and the copperheads gets a working majority on the supreme bench.

The natural reflection upon this history of the supreme bench since 1857 is one of astonishment, admiration and gratitude that within thirty years after the Dred Scott decision slavery is extinct and the negro is recognized as a man, if not as a brother, while Buchanan and his court sleep in oblivion and neglected graves.

The deceased Justice Woods presided over the fifth judicial circuit, which includes Georgia, Florida, Alabama, Mississippi, Louisiana and Texas. Let us hope that Cleveland will give us Garland or Tucker, or some other able Confederate, in place of Woods, because when Cleveland goes north for a democrat for an important position he always selects some picayune copperhead like Minister Phelps to the exclusion of all democrats of national instincts and fidelity to the country.

GENUINE AND APPROVED BY ALL. The only genuine porous plaster is ALLCOCK'S, and all other so-called porous plasters are nothing more than perforated counter irritants made to sell on the reputation of ALLCOCK'S. ALLCOCK'S POROUS PLASTER is the only external remedy that has the unqualified recommendation of professional men and the general public. Beware of imitations!

THE USUAL POLICY.

We are told that many owners of business and residence property in this city, seeing an improvement in times, are screwing up rents. We hear of dwellings, of the smaller class, where twenty-five per cent. has been added, and of several business buildings where ten per cent. has been added. In some cases, the owners of small cottages have added to the rent rate the amount of the recent reduction on the water rate, on the theory that as the tenants "stood it before, they can stand it now."

It seems hard to say that all this is characteristic of Portland, but nevertheless it is the fact. There are honorable exceptions of course, but as a body our people can always be relied upon to apply the throttle whenever there is a manifest progressive movement. They have a fine and unerring instinct which detects the approach of enterprise in any form, and are prepared always to meet it with the most effective discouragements. If there is a proposition to build a cable road, the street franchise suddenly quadruples in value, if it is proposed to set up a factory of any kind, the site particularly adapted for its uses. immediately doubles in price, if there is a proposition on the part of a non-resident to put money into business structures, the investor is told by our leading financiers that nothing will pay, and now when the town is picking up, when there is a prospect of increasing business and population, rents are being advanced.

Rents are already far too high in Portland. Scores of landlords are collecting yearly one hundred per cent. or more upon their original investments, and many who acquired property at recent prices collect as high as twenty per cent. These figures are at random, but they are clearly within the facts. It is a foolish and degrading policy which meets returning good times with exactions whose effect must be to stifle enterprise. Our people never cease to criticise the railroad policy of exacting all the traffic will bear. Is there no public conscience to restrain the application of this hard rule in this city in the matter of house rents?

An extract from the Helena *Independent*, printed in another column, indicates that Montana is not to be driven easily out of the Cœur d'Alene mines. Helena was first in the field, and proposes to stay in. If Portland gets the business of the mines, and get it she must, it will be by having the first and best route. The first and necessary condition is direct railroad connection. Upon this our whole effort should now be bestowed. If the Union Pacific will not build the road then Portland capitalists should organize a company and put it through.

With the return of summer (and with cheaper water rates) we may expect a reduction in the price of milk. Families who have been getting one quart per day for $2 50 per month may soon be able to get the same supply for $2 per month. This should not escape the notice of prudent landlords. The 50 cents thus saved should promptly be added to the rent. No house owner should be so neglectful of opportunity as to fail to exact the last cent.

Steps are being taken for the erection of a Methodist Episcopal church. A sufficient amount has not yet been subscribed to justify the building of the same

Owing to the long continued cold rains the fall wheat is looking badly. [illegible] fields it has turned yellow and much anxiety is felt among farmers as to the result. But little spring grain so far has been sown

Our mail [illegible] but satisfactory. Great [illegible] is manifested [illegible] the way it is now carried which [illegible] makes [illegible] a day late but frequently owing to the [illegible] Issue [illegible] two and three days behind. Saturday's OREGONIAN came Tuesday, which is a fair sample of the present way it is carried and handled. With direct railroad communication with Portland and the outside world [illegible], can there be any [illegible] why the mail should not be carried on a train running here instead of a railroad five [illegible] and leaving it lay over at a station all night. Surely the officers in charge of the mail service should manifest a least decent respect for the wants of the people especially where it would not add additional expense to the government. A strong petition universally signed has been forwarded to the department, with what results are yet to be seen.

MONTANA AND THE CŒUR D'ALENE COUNTRY.

Helena Independent

The Portland OREGONIAN which is always in advance of its web footed constituency, has been aroused to the importance of the Cœur d'Alene country as a mining center. And it is trying to infuse some of its enthusiasm on the subject into the people of Portland. It appears that the recent purchase by Reid, Goldsmith and others of Portland from the Montana syndicate of the plant at Wardner has led to this interest in this field at Portland. The Union Pacific people are to be urged to build the ninety mile gap between Farmington on the O R & N lines, recently leased by the Union Pacific to Wardner to make these mines tributary to Portland. As this territory has been largely tributary to Helena, our people should see to it that they shall not lose their share through the efforts of the Portland people to capture it. Helena was first in the field and should not be behind in the race for supremacy, and the Northern Pacific and its allies in the Cœur d'Alene country are directly interested in the carrying trade of that section and should look sharply after it. The advantages are all in favor of Helena and the Northern Pacific people if they will but avail themselves of them. Spokane Falls, which has had a fair share of this trade, should also be awakened to a realization of the danger of dividing its share with Portland

EXCURSION EAST.

Dr John [illegible] Child is sending postal cards over the country headed, First-Class in Every Particular and which leaves the inference with recipients that he can do great things for them on his excursion June 1 The facts are that the rates he offers—Portland to St Paul and return $90—are open to anybody at any time and there are no advantages that he can offer that are not obtainable by individuals or small parties regardless of any particular date. This rate ($90 and return) applies either to the Northern Pacific or Union Pacific railways, and is good going or returning by either of the above mentioned lines until October 31 1887 East of St. Paul he says he has made arrangements east of St. Paul to other points at less rates [illegible] No doubt about it. All rates east of St Paul are less than they ever were and they are open to everybody I will pay $10 each for every ticket from Dr Child or any one else which is obtained at less than the regular tariff between St Paul and Chicago The round trips and all other tickets are on sale only at the Ash street wharf [illegible] office by A. RUNAWAY—When the alarm for the fire on East Park street sounded yesterday afternoon one of the extramen of No 4 s engine started for the scene in a buggy, accompanied by C C Doublebower In turning the corner of Fifth and Oak streets the buggy upset throwing both of the occupants out on the pavement. Neither was much hurt. After the sudden and unexpected leave taking of Doublebower and his companion the horse concluded to run things on his own hook and did so effectually After canvassing around all the streets in the neighborhood of the fire the horse stopped with some of the buggy left most of it strewn in different places along the route

LOCAL AND GENERAL.

DEATH OF A PIONEER—Newton D Gilham of Mount Tabor died yesterday at 3.30 P M He was born in Southern Illinois August 9 1811 Came from Macoupin county in that state to Oregon in 1852, and in the winter of the same year settled at Mount Tabor where he has ever since resided He was known as Capt. Gilham, from the fact that he was captain of the company with which he crossed the plains thirty five years ago He was a man of noble qualities was a Christian without cant or hypocrisy, and according to the testimony of those who knew him longest was always earnest courageous, and absolutely free from physical or mental fear In school and local matters he was always a main pillar where he lived To political strife he had a natural aversion and though often urged to become a candidate would not consent He died with the same spirit and courage with which he had lived, talking cheerfully and in a spirit of confident resignation even in his last hours The funeral services will be held at the M E church at Mount Tabor to-day and his remains will be interred at Lone Fir at 2 P M

TIMELY DISCOVERY OF A FIRE—Shortly before 3 o'clock yesterday afternoon Capt Fisher, of the steamer City of Sellwood just as she was leaving Central wharf for her Oswego trip discovered a slight blaze in the upper floor of the wharf outside of the warehouse He immediately got out the boat s hose and drenched the floor Some persons on the lower floor heard the alarm and not being able to see how small the fire was hurried up Washington street and turned in an alarm from box 13 which met with prompt response but fortunately the services of the department were not needed It seems that a spark from some steamer lying at Central wharf was blown by the east wind which was then about fifteen miles an hour, into a crack in the floor among dry sweepings The wind fanned it into a blaze and but for the timely discovery of Capt. Fisher there might have been a conflagration Fire in a wharf on so windy a day as yesterday would have been a serious matter

COL GEORGE WOODFORD—All persons who contemplate attending the state convention to be held at The Dalles this week will be greatly interested in learning that Col George Woodford of Illinois will speak at the Thursday evening mass meeting Mr Woodford is said by those who have heard him to be one of the strongest lecturers on the temperance platform. "He has a power that reaches the highest and lowest and captures all classes between For a campaign of from five to ten nights he has not a superior on the continent Dr O B Bird formerly of this city will address the convention Wednesday evening One of the interesting features of his lecture will be his stereopticon outfit with which he made himself quite famous in speaking for the W C T unions of California.

COAST SURVEY—A party in charge of Capt. Cleveland Rockwell of the United States coast and geodetic survey will leave to-day for Yaquina to make a reconnaisance of the coast from that place to Tillamook bay The object of the survey is to more accurately define the coast line and locate, for publication on the coast survey charts the capes and outlying rocks and other visible dangers to navigation The coast survey steamer McArthur, with a naval party on board will also during the season make such surveys on the water and of approaches to harbors as seem requisite to the commercial interests of Oregon The party in charge of Capt Rockwell expect to be engaged on this work for two or three months

STONE CUTTERS DEMAND MORE WAGES—Yesterday the Stone Cutters' Union held a meeting and passed a resolution that on and after the 1st of next month they would demand 45 instead of 40 cents an hour for their work They say that the work now in the hands of the contractors will be finished within a month hence contractors will suffer no loss by the increase asked and they can take future contracts on the basis of 45 cents an hour for journeymen s wages There are only some twenty stone cutters in Portland and they work ten hours a day They claim 45 cents an hour is being paid in most all the other cities

GUNS FOR THE G A R—McPherson Post G A R of Albany has secured by application to Adjutant General Sholner of this city a sufficient number of guns for the use of the post The guns which are the army breach loading rifles will be furnished by the state, and will be forwarded in time to be used at the coming memorial day exercises There is a scarcity of arms in this state at present and of the 100 available guns at Portland the Albany G A R post have secured 30 and the new Eugene military company 60

THE SELLWOOD SCHOOLHOUSE—Bids for the inclosing of the building and finishing of the first floor of the new schoolhouse at Sellwood were opened by the school board on Saturday night They are as follows C I Reid $1960 G H Albers $ 950 E M Wilson $2060 J F Borlin $2 85 J Sheldow $ 3 9 R Ingle $260 The bids for foundation were not opened as that work will be done separately The board expect to award the contract Tuesday The schoolhouse will be a very handsome one when finished

COMMON SENSE VIEW OF THE MIND CURE—Dr Gilbert gave a very fair showing of what the mind cure consists in a characteristic lecture last evening at Gilbert s hall In regard to Christian science he said all science that is worthy of the name is Christian science. But if any one believes he can have good health without observing the laws of health which are God s laws cleanliness temperance proper exercise and pure air he will find himself mistaken no matter how great may be his faith

FOR BIGAMY—J M Noah formerly of this place and Phœnix was arrested at Grant's Pass last week upon charge of bigamy in having married a Mrs Leak who has two or three other undivorced husbands, says the Ashland Tidings The woman was also indicted but had not been arrested at last report On Sunday night Noah made his escape from the jail by removing the lock from the front door he having been allowed the freedom of the corridor

AMPUTATION—The case of Dr Henry E Jones who is suffering from a dissecting wound, took a turn for the worse on Friday and yesterday the second finger of his right hand was amputated by Drs Bevell and Mackenzie His condition is such that he will be laid up for a month at least. Dr William Jones who is east was asked by wire to return at once

LEG BROKEN—Early yesterday morning policeman Dan Maher found John Call a baker lying on Seventh street between G and H with his right ankle broken Maher picked Call up and had him conveyed to St. Vincent s hospital where he now is Call injured the same leg in the same place some time ago, and was laid up for several weeks from it.

SMALL FIRE—At 1 o clock yesterday afternoon fire broke out in the residence of Marcus Wolf on East Park street, between Stark and B As near as could be learned the fire originated from a defective flue The only damage done was the burning of a small part of the roof Mrs John O Neill owns the building The parties are insured

REDUCED FARES TO SAN FRANCISCO—Mr L R Rogers general passenger and ticket agent of the Oregon and California announces the following through passenger rates Portland to Sacramento or San Francisco first class limited $2[illegible] unlimited $[illegible] emigrant limited $15 The new rates go into effect to-day

W C T U STATE CONVENTION—The state convention of the W C T U will convene this evening, at The Dalles A full delegation from Portland including the state and local presidents will take the 3 o clock train this afternoon for that point and an interesting session is anticipated

HOW TO START A HOTEL FUND—A gentleman in moderate circumstances, who owns a few shares of stock in the Portland Tugboat Company which will soon disincorporate suggests to THE OREGONIAN that the stockholders call a meeting and agree to subscribe a sum equal to their tugboat company stock for a new hotel There is to be divided when the company dissolves, about $55 000 Let this be a nucleus for the hotel fund. None of the stockholders ever regarded the investment as one which would pay dividends They put up the money to protect Portland as a sea port to correct abuses and permanently to stop complaints of ship masters The work undertaken by the company was done a hundred miles from here and the stockholders did not expect ever to receive direct benefit to the amount of a cent. It was a clear case of pro bono publico and the money was subscribed cheerfully Portland needs a large first-class hotel at this time much worse than she needed a tug boat company five years ago and if the matter is taken in hand by a few energetic citizens now and worked for what it is worth this city one year from to-day could have just such a hotel as it needs

YESTERDAY S WEATHER—Everybody was out of doors yesterday enjoying the first summer Sunday of 188[illegible] The sun shone bright and had not a stiff breeze blown the afternoon would have been considered uncomfortably warm At 3 P M the temperature was 5 degrees and at 7 P M the mercury had dropped only one point For the first time this year the Washington street line put on their open cars The company did a land office business all day and in the afternoon the B-street cars were crowded with people visiting the park Clear down to the horizon the sky was clear and the Cascade range never presented a grander appearance The summit as far as the eye could reach is still covered with snow and the range is much whiter than usual at this season The river in front of the city was dotted with sail boats and hundreds of pleasure seekers took drives By 2 P M it was impossible to secure a livery rig for love or money The Morrison street bridge was converted into a promenade and thousands climbed the hills back of the city many returning loaded with wild flowers It was a glorious Sunday

INDIANS SELECT LANDS—The Indians have selected their portion of the reservation says the East Oregonian. It will be between four and five miles from Pendleton, and begin at a point about three miles south of the Indian school and run a straight line until it strikes the Wild Horse creek at or in the vicinity of Adams then following the Wild Horse to the mountains This body of land will contain about 125 000 acres and includes all the wood and grazing lands allowed the Indians by the bill The selection is satisfactory to Pendleton people W T Chalk and W W Caviness have secured the contract for surveying this portion of the reservation and will proceed to work shortly The site for the Indian industrial school will be selected by the commissioners in a few days

PROPERTY REDEEMED—Joe Ben Lane of East Portland says an Oysterville W T, paper recently redeemed a piece of property sold at sheriff s sale a year or more ago in favor of John Briscoe. The amount paid to redeem the land and pay judgment was some $2000 The property consists of forty acres on the ocean beach a few miles from Ilwaco and was bought by Lane three years ago or $3000 He was recently offered $4500 for it.

This beautiful tract of land, consisting of 208 lots, is situated in the famous fruit growing district adjoining East Portland, one-half mile east of the city limits, on the extensively traveled Base Line road, also on the main line of the Mount Tabor & East Portland railway, and only five minutes' ride from the Morrison-street bridge This land is all level, cleared and in a high state of cultivation, with fruits and berries, such as apples, plums, prunes, cherries, peaches, pears, etc., together with strawberries, blackberries, and, in fact, all the fruits and berries for which this favored section is noted.

Situated as it is, away from the malarial district, it is entirely free from all miasmatic influences, and is destined to become, with the rapidly increasing population of the two cities, what Berkeley and Alameda are to San Francisco—a place of beautiful homes

Through the completion of the Morrison street bridge

PARADISE SPRING FARM

Is made a delightful suburb to the city of Portland, and in less than six months passenger trains of the Mount Tabor & East Portland Railway Company will pass this property every half hour, thus making it possible for the merchant the mechanic and the laborer to do business in Portland and live in the most delightful of all its suburbs. To the observing man we deem it unnecessary to enlarge or even to dwell upon the possibilities of Portland and its suburbs as compared with those of any other city, believing, as we do, that it is without a parallel in the United States. Although the city of Portland has not yet attained the average lifetime of man it ranks to day in population as the forty fifth city in the Union, is the actual terminus of three transcontinental lines, has more wealth within its boundaries and a greater area of territory at its command than any other city of America.

Portland's position as a trade and travel center is as thoroughly defined on the Pacific coast as that of New York on the Atlantic, and it is safe to say that within ten years it will have a population of over 100,000 Already its residence capacity is taxed, and right here the question arises, Where will these newcomers seek homes? Will it be in the stifled precincts of a four story tenement house, such as is found in the densely populated cities? Will it be on the rugged hills surrounding the city, where land is already held at $6000 a block? Or will it be on the

BEAUTIFUL UNBROKEN PLAIN

Extending eastward from the river, on which is situated Paradise Spring Farm? Land on either side of Paradise Spring Farm has sold as high as $1500 per acre, and the most inferior cannot be bought to-day for less than $1000, and that only in five and ten acre tracts, and yet we propose in this matter to give subscribers a chance to secure a regular lot, fifty feet by one hundred feet, at the same rates as sold per acre, besides making them a present of a new, handsome modern-designed hard finished house, all ready for occupancy These lots, 208 in number, will be placed on the market at the reasonable price of $200 each, one fourth of that sum to be paid at the time of subscription and the balance in monthly installments of $15 each, without interest on deferred payments As a further inducement to populate this beautiful section, we have now in course of erection six handsome, modern designed five and seven room houses which are to be given away free to the purchasers of lots Under this arrangement six out of the 208 subscribers will secure a handsome house and lot worth $1400 each, for the small sum of $200, while the balance will have lots that cannot be purchased anywhere in the same locality for less than $300 each and then only in acre tracts—a fact that precludes the possibility of purchase at all by men of limited means The award of the houses is to be made under the supervision of a committee of responsible and disinterested citizens, at some public hall to be agreed upon in Portland in June 1887

Parties at a distance can purchase under this plan of award as well as those in the city, it being specifically agreed on our part that everything is to be just as represented

Remittances can be made to us by mail or express

METHOD OF SALE

These houses, six in number together with the orchards and other improvements, are to remain on the lots where they are at present situated and are included in the price paid for the lots ($200 each), to those who draw the fortunate numbers

In order that all buyers may have an equal chance in the drawing the following plan of award will be adopted The name of each subscriber will be placed on one slip of paper and a number of each lot, from 1 to 208, will be placed on another slip, the two slips will be placed in separate boxes, and under the supervision of responsible and disinterested citizens will be drawn simultaneously The number drawn will designate the lot belonging to the subscriber whose name accompanies it. Under this plan the names as well as the numbers will be placed in the separate boxes promiscuously, thereby removing any possible advantage that one subscriber might have over another

The plats on file in our office, as well as a visit to the premises, will show on which lots the houses are located but no one can tell who will receive the winning numbers until they have been drawn blindfolded from the box.

Each and every subscriber will receive a warranty deed to his lot, without any extra charge whatever

Remember that there are six elegant, modern-design dwellings to be given away with these lots Price, $200 each, one-fourth down and the balance in installments of $15 a month, without interest

On and after May 1 we will have an elegant four horse conveyance on hand to convey prospective purchasers to and from the premises free of charge

In order to accommodate those who cannot call during the day, our office will be open every evening (except Sunday) during the above sale, from 7 to 9

The Strained Relations between Germany and Russia.

MORLEY AND THE COBDEN CLUB

Editor O'Brien's Movements in Canada—Racing at Chantilly—The Great Colliery Disaster in Australia.

CABLE LETTER FROM BERLIN

Matters in Parliament and the Flurry Between Germany and Russia.

[Copyrighted by New York Associated Press.]

BERLIN, May 14—The commission on the spirit tax held a preliminary sitting yesterday. The composition of the commission gives so strong a majority to the supporters of the bill that there is no chance that amendments will be other than the government chooses.

The sugar tax bill was passed by the bundesrath to-day and will be presented to the reichstag next week. An effort will be made to have the measure pass its first reading before Whitsuntide. The bill fixes the import duty from August 1, 1888 on syrup and molasses at 15 marks per 100 kilograms, upon all other sugar 30 marks per 100 kilograms, on beet roots 1 mark, and on beet root sugar, home made, 10 marks per 100 kilograms. Further from the same date an export bounty of 10 marks per 100 kilograms will be paid on raw sugar and for other sugar an export bounty of 13 marks.

The reichstag will overtake during the present session some of the social measures. The first of these to be taken up will be Seamen's accident insurance bill, commission on which is now sitting.

The agrarian party has definitely succeeded in inducing the government to prepare a bill raising the duties on corn and wool. Herr Von Scholz, minister of finance, has the bill in hand. It is reported that its leading proposals nearly double the import duties on corn, rye and wool. Opposition to the proposal is seen under the irritation caused by Russian tariffs which are hostile to Germany.

GERMANY AND RUSSIA

Official advices from St Petersburg to-day declare that there is a marked improvement in Russian relations with Germany, and that the *entente cordiale* with Prince Bismarck has been renewed despite the [illegible] Austro-Russian [illegible] of Bosnia. This statement [illegible] in Berlin official circles [illegible] indicating a dread of [illegible] intrigue on the part of Russia [illegible] trying to induce Austria to abandon the [illegible] alliance. The origin of the recent [illegible] is now known to be the discovery by Prince Bismarck that Russia was making approaches for her secret treaty with Austria with the object of detaching her from Germany. The disclosure has effected its purpose of frustrating the Russian game and obliging the Austrian government to summarily refuse to consider any arrangement not known to Germany.

Herr Tisza, Hungarian premier, will be questioned next week on the diet at Pesth for the purpose of eliciting information as to the relations between Austria and Russia, but it is improbable that Tisza will be in a position to make an explicit declaration. He can certainly venture to say nothing about the new Russian intrigue, suspicion of which increases the anger of the Hungarian deputies over the reichstag compact of 1876. In the face of Russian underground plotting, open tariff hostilities and efforts to extinguish Germans in the Baltic provinces, verbal assurances coming from St Petersburg are held of small account. The Post, referring to the czar's edict suppressing the German language in schools, declares that this is the hardest blow struck at Germany and European civilization in the Baltic provinces. It involves the extirpation of the German element of the Doorpatt university and will intensify the bitterness of the anti-Russian sentiment felt throughout Germany.

THE COBDEN CLUB.

John Morley Makes a Speech at the Annual Dinner.

LONDON, May 15—The annual dinner of the Cobden Club was given at Greenwich last evening. There was the usual muster of members of parliament and Cobdenites and several colonial delegates were also present.

John Morley, president, in a speech eulogizing Cobden, said it was useless to speculate as to what position Cobden would take in the politics of the present day. They should, however, imitate his courage. He did not quail even before the *Times*, which accused him of advocating the robbing of landlords. Cobden wrote to the editor strongly denying its assertion. If the *Times* chose to pervert the sense of their speeches, they were bound to disprove the accusations, to say it was foul libel and that the publisher was amenable. These were Cobden's own words. They bore indirectly upon the present controversy. Morley referred to other accusations brought by the *Times* against Cobden and touched upon Cobden's expressed conviction that Ireland was a most worthy problem to engage the attention of great statesmen and that it was absurd to engage in Polish and other entanglements and leave a population of fellow citizens in a more barbarous and degraded condition than any civilized people in the world. Morley reviewed the life of the club, urged the members to protest more actively against aggressive wars of annexation. Glancing at the condition of the country he said he saw nothing to cause uneasiness. The indications were rather that the state of society became sounder materially and economically through the policy of the statesman whom they met to commemorate.

CANADA.

O'BRIEN'S MOVEMENTS

MONTREAL, May 15—O'Brien had the quietest time yesterday that he has had since he crossed the border and entered the dominion. Prominent public men of different nationalities called on him during the afternoon at his hotel, but he felt so fatigued that he relieved himself from all further public notice by locking himself in his room and attending to dispatches from his friends in Toronto, to which were many and frequent. O'Brien went to high mass to-day and in the afternoon attended the National League meeting in St. Patrick's hall, which was crowded by an audience which cheered the Irish agitator and the evicted tenant Kilbride. O'Brien made characteristic speeches here and at two receptions given him later in the day. The enthusiasm was unbounded wherever he appeared.

THE FIRST LEAGUE GAME

THE WILLAMETTES DEFEAT THE PORTLANDS BY A SCORE OF TWELVE TO SEVEN

After several weeks stagnation occasioned by unpropitious weather, the baseball business opened out again yesterday at the old stand, the Oaks, East Portland. The day was fine and the attendance large. It was the first game for the local league championship and the Willamettes and Portlands crossed bats, the East Portland nine coming out victorious by a score of 12 to 7. It was their game from the start. They scored nine runs before the Portlands got a man across the home plate and not one of the runs was earned. In the first four innings the Portlands made seven errors, each of which cost at least one run. Then they steadied down to their work but it was too late. The Willamettes excelled in fielding and base running but were weak at the bat, six safe hits being their total score. Turnbull, the new catcher for the Willamettes, showed up remarkably well again, holding Parrott's delivery better than any veteran who ever attempted the task. He caught two men with beautiful throws to second. Bailey is at home at second base and plays the position in fine style [illegible]. Parrott [illegible] the [illegible] applauded [illegible] against the Portlands [illegible] but he was [illegible] just the same and held all the balls thrown to him at first base.

Fred Smith, who can't bat a little bit you know, succeeded in driving the ball three times to center field, much to the astonishment and disgust of Tom Parrott, and the way Smith picked up grounders at third and fired them to first did not please the East Portland contingent at all. Glendenning made a fine catch of a fly in a long left after a run backwards down hill to the fence. Christy pitched four innings and retired to center field, Timmons going into the box and Mebus behind the bat. Not a single safe hit was made off Timmons, but he gave two men bases on called balls. In the seventh inning the Willamettes were retired with only three balls pitched—the shortest inning on record in Oregon. "Jiggs" Parrott hit the first ball which Timmons delivered and was fielded out by Smith to Connolly. Turnbull popped up a fly which fell into Timmons's hands and Mathott batted a long fly which Glendenning captured. Following is

MORNING GAME.

At 10 o'clock the newly organized Pioneers played an exhibition game with the Altamonts, the Willsburg club. Up to the sixth inning the game was interesting, the score standing 3 to 3. Then the Pioneers piled up six runs. Only seven innings were played. Following is the score:

	1	2	3	4	5	6	7	
Pioneers	1	0	2	0	0	6	2	—11
Altamonts	0	1	0	1	1	0	0	—3

Base hits—Pioneers 6, Altamonts 3. Struck out—Pioneers 5, Altamonts 7.

NOTES

Next Sunday the Pioneers and Willamettes play.

Not a single base hit was made off Timmons in the five innings he pitched.

Following the lead of Eastern journals the Portland papers will not score a base on called balls as a base hit despite the new rules.

Jack Greer makes a good umpire, but he ought not to be afraid to leave his place and run toward first base when there is likely to be a close play.

EXHIBIT OF DAIRY PRODUCTS

LIST OF PREMIUMS TO BE COMPETED FOR, RULES AND REGULATIONS

The first annual exhibition of dairy products of the North Pacific Dairy Association will be held in this city in connection with the domestic and fat stock show. Last Saturday the committee in charge arranged the following premium list and adopted rules and regulations.

Grand Encampment I O O F will convene this evening in Scott's hall on J and Fourth streets.

Quite a number of our citizens have expressed an intention of going to the ocean beach to spend the hot summer months.

Owing to some slight informality in the selection of directors of the Long Beach Association another election will be held.

It was stated last night that tramps built a fire under the J street roadway yesterday evening and came near firing the structure.

Dr Harrington, of Salem, occupied the pulpit at the M E church yesterday morning and at 3 P M dedicated Steinbergs addition chapel.

The white tents of the Adventists in the southern part of the city are quite conspicuous. Services will be commenced on the 18th—next Wednesday.

Viewers of the new road from Jenne's donation land claim to Powell's valley meet to-day at Mr Jenne's residence to arrange for viewing on the road.

It is stated that a number of cows have been running at large near the old asylum building. Parties should report such matters to the pound master.

The fence at the baseball grounds that runs parallel with the N street roadway was raised [illegible] enough to prevent the game being seen from the roadway.

The social dance given in Shute's hall Saturday evening [illegible] was well attended and very enjoyable. Music was furnished by Parr's orchestra.

Parties in from Pleasant Home state that there will be a school meeting in Pleasant Home district May [illegible] for the purpose of levying a tax to build a school house, agreed upon some time since.

It was announced at the Methodist church last night that Rev I D Driver on next Sunday night will preach upon the immortality of the soul from a scientific standpoint. This sermon is called out by an article on that subject which appeared in THE OREGONIAN some days since.

That seal caught near Vancouver and sold by the man who caught it to Furman made so much noise that he threw it into the slough. The seal swam south of N street and the gentleman who first had it took a small boat, caught the animal, took it over the river and sold it the second time in Portland.

The city council hold a regular meeting to-night. The amendments to the city charter are not yet in force and will not be in force until after the 1st. Council will work under the new amendments at the first meeting in June. Until then no street railways will be granted right of way through the city. It is stated that the matter of granting rights of way through the city will be left to the new council with which to deal, although this will delay action considerably.

It is stated that the republican committee will hold a meeting this week, and arrange for the coming city election. The names of several gentlemen are mentioned in connection with the offices of mayor, recorder and councilmen who would do honor to the positions. The general wish is that men of energy and progressive ideas shall be elected. The present is the most important period in the history of the city government: street improvements are to be advanced and enterprises are to be encouraged. Only such men should be elected who will use every legitimate effort to encourage all lines of improvements.

Tramps made their appearance last night in East Portland in great numbers. Several were given quarters in the city jail. A gentleman was approached by one who wanted his supper. He was taken to the Vienna and there filled up. When he got on the street again the tramp came to the conclusion he had better make further provision against the time when he would be hungry, so he "struck" another man and was taken across the street into the Campi. However the trick was discovered and the second supper was not obtained. Officer Rhoads made two arrests. It was stated at the Adventists' camp ground. For what could not be ascertained.

PARADISE SPRING FARM

WHAT AN "OREGONIAN" REPORTER LEARNED IN AN INTERVIEW ON SATURDAY

"Can you afford at the price asked per lot in your tract to erect and give away six hard finished houses as you advertise?" asked an OREGONIAN reporter, as he entered the office of H Donnelly, Flynn & Co last Saturday afternoon.

"Yes, we can," replied Mr Flynn, as he invited the inquiring pencil pusher to take a chair, "and furthermore, we propose to do it. We awarded the contract yesterday afternoon to Mr G H Wiser for the erection of six houses on the place at a stipulated cost of $1140 each, and they are to be ready for occupancy by the 10th of July. These houses are modern design ground floor cottages of the most approved style and will contain bay window parlors connected with sitting room by folding doors, also two large well lighted bedrooms, bathroom, dining room, kitchen, pantry, closets, hallway, etc. They are to be hard finished and painted throughout, and the last one will be ready for occupancy by the 10th day of July. In addition to the above there are two very good houses now on the premises which will also be given away with the lots, making eight houses in all, or two more than we have advertised."

"Is the land level?"

"Yes, every foot of it is level and in actual cultivation with fruits and berries, and if it were not so we certainly would not furnish free carriages for its inspection. We have 170 lots in the tract, and we will agree to give $125 cash for the most undesirable lot in the whole number, either before or after the drawing, as the purchaser may elect."

"I thought you had 208 lots?"

"We supposed we had that number, but after a careful survey of the property under the supervision of D W Taylor we found after dedicating streets that we had but 170, so the purchaser, instead of having six chances out of 208 of drawing a house with the lot as advertised, will have eight chances out of 170."

"Then your profit in the matter will not be as large as you anticipated?"

"No, we do not expect to make a fortune out of the sale, but we intend to keep faith with the public, even if we do not make one dollar out of the investment. Right in this connection we might say that a great many stories have been advanced by malicious mossbacks who decry everything that tends to leave them in the shade—where they belong—about the amount of money we make out of the enterprise. And for their especial benefit, as well as for the enlightenment of the public, we will state that we have in this matter assumed a $34,000 risk to make $4000, and in doing so we have afforded men of moderate means a chance to acquire a home in a locality where it could never have been accomplished otherwise. We have 2[illegible] acres in this Paradise Spring farm tract, for which we have paid $800 per acre, or a sum total of $20,800. In addition to this we expend $6840 in the erection of six hard finished houses, $1500 for advertising, $[illegible]60 for attorneys fees, $[illegible]00 for surveys and maps, and $300 for carriage hire, which makes a total of $[illegible]. Out of the sale of 170 lots at $[illegible]0 each we will realize the sum of $34,000, which will yield us a profit of $[illegible] per [illegible] or $4000 [illegible] expenses, and we wait ten months for our money without interest."

"That [illegible] to be a very candid statement."

"Well, that is the way we do business. We have nothing to conceal in the matter and we might add that [illegible] of our competitors can do any better by the public [illegible] would like to have them do it. [illegible] direct insinuations have been made by a [illegible] irresponsible curbstone real estate fakirs who [illegible] of land in the effect that land could be purchased in that vicinity for less [illegible] for their benefit we will state right here [illegible] in the same locality either east or west of Paradise Spring farm fronting on Mount Tabor avenue [illegible] we will take every foot [illegible] price."

"That certainly ought to settle all disputes about the value of the land," remarked the reporter as he prepared to take his departure.

"If you don't think it does, just call on W S Ladd, who owns 180 acres adjoining our property, [illegible] M Watts, who owns [illegible] street, Wm Reed, president of the Mortgage [illegible] [illegible] homestead [illegible] Paradise Spring farm. In fact, [illegible] property fronting on Mount Tabor avenue and [illegible] purchase land in that locality for [illegible] acre, we will make it an object for you to do so."

"When is the award of houses to be made?"

"On the evening of the 15th of June at the New Market theater without fail. As some question [illegible] been raised about the intrinsic value of these [illegible] we will state right here that we will give each and every purchaser the sum of $[illegible] cash for the option of taking the lot he may secure at any time within twelve months for the sum of $[illegible]00. This [illegible] we guarantee each purchaser a sum equal to about 15 per cent on the investment and that too on property which he has not yet paid for."

"That seems to be a pretty liberal offer to make," remarked the reporter as the thought of investing suggested itself.

"Yes, it may seem like an extravagant offer, but when you take into consideration the indisputable fact that Portland's present population will double within the next five years, and that the masses will be obliged to seek homes on the east side of the river, we think you will find it a safe proposition, and we have no hesitancy in making it."

"Varmint" Killed

Bunchgrass Blade May 12

For some time past the people of lower Willow creek have been seriously annoyed by a wild beast of the cat species, which animal has been in the habit of prowling around in the night, visiting houses, killing dogs and cats, scaring women and children and making a row generally. On Friday night last Messrs Oviatt and Lord were enjoying the hospitality of Dr. Henry Petre. When all were lost in dreams they were suddenly awakened by the most unearthly yells, mingled with the barking of dogs. Amid the confusion of Mrs P's "Get out" and the doctor's "Where's that Winchester?" Lord and Oviatt appeared at the door and espied an undescribable something about twenty feet off.

The doctor appeared on the scene with a rifle and blazed away at the snarling, crouching brute. The shot took effect in the back of the animal, and it tumbled over. George Lord, half awake (and a good deal less than half dressed), rushed out and grabbed the "thing" by a hind leg and started for the house, but the toothy, prongy piece of feline cussedness began to recover from the shock of the bullet, and the way George slung that "varmint" about was a caution to bare legs and feet. George, however, came out on top, as usual, and that hybrid beast soon became a thing of the past.

The animal, after it was killed, puzzled all our students of natural history. It was about the color of a Maltese cat, and measured about three feet and a half from the tip of its nose to the end of its short tail. It had obtained such a reputation for ferocity in the neighborhood that the children were afraid to go to school.

Highway Robbery

A few days ago, says a Walla Walla paper, an old man named Thomas Donahue, who lives near Milton, went over to Pendleton to court. Before he left home the school clerk gave him an order for $110 of school money to bring back. When ready to return home Mr Donahue put the school money in a breast pocket, mounted his horse and started off. When about two miles from Athena he met two roughly dressed men, one of whom covered him with a revolver and the other demanded his money. Mr Donahue gave up the roll of money but forgot to hand out $[illegible] in his [illegible] pocket. He was then told by the men to go home as fast as he could and keep his mouth shut, which he followed and is still following. But he had to account for the school money, he had to tell some one, so he told his wife, and she told some one else and so on the story. In the meantime Mr Donahue, like the good honest man he is, reported to [illegible] borrowed enough money to replace the lost school funds.

No Signs of Drouth

Pendleton Tribune

Two years ago at this time we were praying for rain and the faces of the farmers were as long as fiddles. Good farms could be purchased cheap for cash but no one seemed anxious to invest. There had been no rain to speak of for over two months and the wheat fields began to show signs of drouth. The farmers were calculating how many days they could stand before they would have to give up the crops for that year as a gone gosling if rain did not come. South from here the crops fared worse than north. How different this year! We have an abundance of rain. The copious showers of Saturday and Sunday have thoroughly saturated the ground and crops are in fine condition. The year above referred to the rain came about the 15th of May and for three days showered down in good shape. The prospects for a fair price are also good.

Late New York trade papers to hand report firmer sugar, petroleum and tin plate markets. The *Shipping List* says: The market for tin plate has ruled firm for spot in consequence of the continued scarcity of stock and difficulty of completing assortments, and the good demand that has prevailed, and prices for some grades are higher. In teas the only change developed has been a little more demand for Japans. The first steamer with new crop Japans has sailed from Yokohama with 6000 half chests, of which about one half is for New York and Eastern ports and the remainder for Western cities. Quotations in Japan are comparatively high, $31@38 picul, but will probably decline as supplies arrive at the ports more freely. The demand for refined sugar has improved, and with supplies of both hards and softs closely sold up the market has ruled firmer with a slight advance obtained for some grades. In spices the only new feature has been a sharp advance in cloves owing to a higher market in London, the late terrible [illegible] quoting [illegible]. Sellers here have advanced their price for Zanzibar to [illegible] which is below London. Nail manufacturers will not book orders ahead at present prices anticipating an advance. Mackerel and cod are coming forward very slowly and as supplies are closely sold up a firm feeling exists as to prices. Box herring remains quiet and steady. Brazil coffee [illegible] [illegible] a fresh wave of speculation has succeeded the temporary halt. Messrs Johnson & Co a [illegible] Br[illegible] house who are an accepted authority in [illegible] predict a reduction in their previous estimate [illegible] the growing crop that had the effect of stiffening up all European markets [illegible] the strength [illegible] reflected here in the gradual working [illegible] upward [illegible] lines that took place and the previous decline was fully recovered. Messrs [illegible] [illegible] the reputation in this country of being a reliable and conservative authority, reduced their estimates of the [illegible] crop from [illegible] to [illegible] two and one quarter million bags and this fact stimulated the market into unusual activity.

PRODUCE RECEIPTS—Last [illegible] [illegible] qr sks wheat, [illegible] bbls flour, [illegible] sks [illegible] lbs hides, [illegible] cs butter, [illegible] cs eggs, [illegible] oat [illegible] cs and [illegible].

WOOL—New York mail dates say the market continues in the same condition [illegible] that has obtained so long, and although there is perhaps less disposition to grant concessions, the market is not yet to be called firmer for the limited transactions are all on the basis of former quotations. Firmer markets west have some influence. Sales included 10,000 lbs Eastern Oregon, private terms. At The Dalles late this week [illegible]¼c was offered for an exceptionally choice lot.

WHEAT—Receipts noted are for San Francisco shipment and valley product. Advices are not of particular interest and the local market is inactive.

FLOUR—Standard brands advanced 10 cents per barrel, now quoted on basis of $4 60. Notice of this was sent out last evening by one mill and on Monday all will quote it.

OATS—Very quiet, few coming forward very lately. Market only steady, with 41c as obtainable.

POTATOES—On the down grade and dealers are indifferent. Quote 1¼@1½c as all that can be expected.

EGGS—Dull sale at 18c, although a number of dealers quote 20c, some having guaranteed this figure for the week. On Monday they will probably lower their pretensions.

NEW YORK STOCK MARKET

NEW YORK, May 14—The stock market was as usual on Saturdays much duller than on preceding days, and notwithstanding a firm undertone was rather heavy throughout most of the day. The opening was firm and active but prices receded immediately, declines ranging up to ½ per cent. Upon a rally the market became dull and soon became again heavy. In the afternoon however there was an increase in trading accompanied by a firmer tone in the general list and marked strength in a few. There was some lagging in the last hour and the close was quiet and rather heavy.

Government bonds were dull and steady.

SHIPPING NOTES

Br bark Aberlemno Victoria, Nov 30 for London, passed Isle of Wight 10th inst.

Br ship Abeona reached Middlesborough 7th inst. She had been reported sailed for Stockholm.

Bark Coloma sailed from Hong Kong April 12 for this port and should arrive this month. German bark F H Drews was reported there for this port April 16th. She is of 624 tons register. Mail dates of March 31 reported business obtainable for a small vessel and the Drews has doubtless secured it.

Ship Harvester, 1491 tons, built at Bath in 1875, has been sold for $24,000 to A P Lorentzen and others of San Francisco and goes into the coal trade.

Vessels at New York 11th inst for San Francisco were Alex McNeil, Charmer, Josephus, Seminole, St John, St David, Tam O'Shanter and C D Bryant. The Bryant, Charmer and Seminole have since sailed.

DR. JOHN BULL'S

Smith's Tonic Syrup

FOR THE CURE OF

FEVER and AGUE

Or CHILLS and FEVER,

AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient. Use no other.

BLACK WOLF

Or Black Leprosy is a disease which is considered incurable, but it has yielded to the curative properties of SWIFT'S SPECIFIC—now known all over the world as S. S. S. Mrs Bailey, of West Somerville, [illegible] Boston, was attacked several years ago with this hideous black eruption and was treated by the best medical talent, who could only say that the disease was a species of

LEPROSY

consequently incurable. It is impossible to describe her sufferings. Her body from the crown of her head to the soles of her feet was a mass of decay, masses of flesh rotting off and leaving great cavities. Her fingers festered and three or four nails dropped off at one time. Her limbs contracted by the fearful ulceration, and for several years she did not leave her bed. Her weight was reduced from 125 to 60 lbs. Perhaps some faint idea of her condition can be gleaned from the fact that three pounds of Cosmoline or ointment were used per week in dressing her sores. Finally the physicians acknowledged their defeat by this Black Wolf and commended the sufferer to her all-wise Creator.

Her husband hearing wonderful reports of the use of SWIFT'S SPECIFIC (S S S) prevailed on her to try it as a last resort. She began its use under protest, but soon found that her system was being relieved of the poison, as the sores assumed a red and healthy color, as though the blood was becoming pure and active. Mrs Bailey continued the S S S until last February; every sore was healed; she discarded chair and crutches and was for the first time in twelve years a well woman. Her husband, Mr C A Bailey, is in business at 17½ Blackstone Street, Boston, and will take pleasure in giving the details of this wonderful cure. Send to us for Treatise on Blood and Skin Diseases, mailed free.
